How to Identify a Fake Coupon

1: Pseudo-official looking details mean nothing.
2: Not a Pi member, former member, or Apple idol.
3: Note blank area on coupon.
4: Note other blank area on coupon!
5, 7, 9: Wrong discount shown (should show 1 instead of 10).

6: Not a valid hexadecimal number.
8: These areas look really bad when printed on inkjet printers and most laser printers.
9: Second arrow from 9 points to nothing in particular, but added for visual interest.
